

# Marine Electric Winch

The Ultimate in Power, Precision, and Performance

## Tackle the toughest marine operations with confidence

Tackle the toughest marine operations with confidence using the best electric marine winch on the market. Engineered for durability, efficiency, and superior pulling power, this rugged powerhouse delivers smooth, reliable performance in even the harshest conditions. Whether you're managing heavy loads on a commercial fishing boat, tugboat, or offshore vessel, our high-performance electric winch ensures seamless control and maximum safety for your operations.

Designed to meet the **unique demands** of marine industries, our electric winches come in light-duty to heavy-duty models, with pulling capacities exceeding **40 tons**

### WHY CHOOSE OUR ELECTRIC MARINE WINCH?

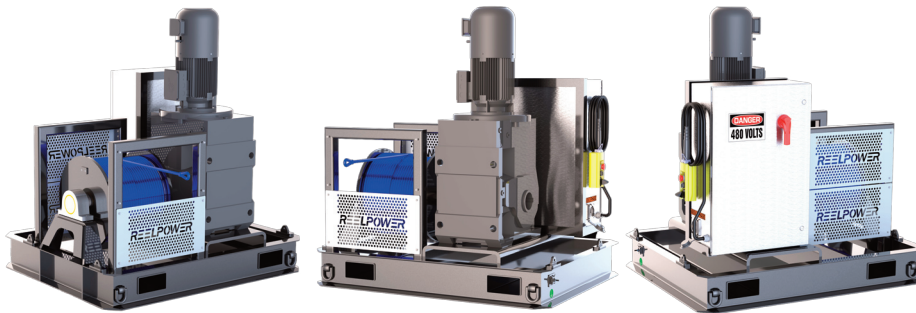

- » **Heavy-Duty Construction**  
Built with corrosion-resistant materials to withstand extreme marine environments.
- » **High-Powered Electric Motor**  
Delivers exceptional pulling strength with energy-efficient performance.
- » **Smooth & Quiet Operation**  
Advanced motor technology reduces noise and vibration for a superior user experience.
- » **User-Friendly Controls**  
Precision control enhances safety, ease of use, and operational efficiency.
- » **Versatile Applications**  
Designed for commercial vessels, offshore operations, and marine construction.

**REELPOWER**  
MARINE & ENERGY

# Custom Electric Marine Winch Options

## Available Customization Options:

- » **Adjustable Pulling Power & Speed** – Optimize efficiency with variable pulling capacities and adjustable speeds for controlled operation.
- » **Customizable Rope Length** – Select the ideal rope length for your specific needs.
- » **Advanced Control Options** – Choose between tethered operator control or an on-board variable frequency drive (VFD) in a NEMA 4X enclosure for precise speed and torque adjustments.
- » **Flexible Enclosure Choices** – Available with or without an enclosure to match your environmental and operational requirements.
- » **Level Wind System** – Ensures even cable spooling for smoother, tangle-free operation.
- » **Active Heave Compensation** – Enhances stability and control in dynamic marine conditions.
- » **Custom Drum Sizes** – Engineered to accommodate various cable lengths and diameters.
- » **Lebus Drum** – Designed for precise cable guidance and extended rope life.
- » **Synthetic Rope** – Pre-wound for immediate use and improved durability.
- » **Custom Tie-Down Solutions** – Secure installation designed for your vessel's unique requirements.
- » **Forklift Pockets & Lift Eyes** – For easy handling and transport.
- » **D-Ring Tie-Downs** – Provides added stability and security during operations.
- » **Guarding of Rotating Components** – Ensures maximum operator safety during use.

## Upgrade Your Marine Operations Today

Get the **power, precision, and performance** you need with a marine winch that works as hard as you do. Contact us today to discuss your requirements and get a **custom solution tailored to your success!**
